

Flexo Printing Machine

Flexo printing machine is ideal for heavy printing the high precision requirement for thermal paper ,bond paper,non-woven ,plastic film etc.

It is with PLC man-machine interface communications program and colorful touch screen for user friendly.

It is optional requirement for 2colors,4colors,6 colors.

Brief Features:

Name:Flexo printing machine

Raw materials roll width : 400/650/800mm option

Printing length :max800mm

Maximum raw material roll diameter: 800mm

Machine design speed :10-80m/min

Precision of printing plate-0.3mm

Diameter of rubber plate:75-350mm

Electrical Power: 17kw

Weight of Machine:4000Kg

Machine Dimension : 5800 x 1600 x 2400mm(L x W x H)
