Stretch Film Rewinder Slitter

Stretch film rewinder slitter is a multi-functional model for stretch film slitting and rewinding. The main purpose is to divide the large diameter of the jumbo roll into several small diameters. Through slitting and rewinding, it is possible to correct the dislocation of the product and improve the technical indicators such as flatness and appearance quality of the coiled material.

Main specs:

Name: Stretch film rewinder slitter

Model: PPD-SFR500

The way of jumbo roll loading: Manual

The maximum diameter of the mother roll: 400mm

The maximum width of the mother roll: 500mm
